## BUDGETARY FACTORS

IN ADDITION TO PLANNING FOR UNWANTED SURPRISES,  
BUDGETARY PLANNING CAN SOMETIMES HELP IMPROVE THE PROJECT.

**A** What is the total planned budget to complete this project?

---

**B** Could you consider a fundraising activity to improve the initial budget?

Your Jambette representative can show you examples of projects that were financed in part through fundraising organized around a large community project. If you believe such funding is accessible, do not hesitate to contact the local organizations in your community. However, please note that Jambette does not manage these types of activities.

**C** Would your project benefit from being completed in several phases? Your Jambette representative can help you design your project to be completed in several phases of acquisition and installation, which would spread out the costs.
