BASIC FEATURES

AGE GROUP: **18 months to 12 years old**
FALL HEIGHT: **110" (2,8m)**
CHILD CAPACITY: **30 children**
REQUIRED SURFACE: **37' x 37' (11,3m x 11,3m)**

DESCRIPTION

This play structure provides innovative fun physical activities sure to enhance your recreational space. Physical movements such as climbing, hanging, balancing, swinging, crawling and sliding as well as socializing and cognitive activities make Jambette's product an excellent tool for a child's overall development.

ANCHORING

ON STRINGERS
This product is anchored to the ground by a system of galvanized steel stringers. Some parts of the stringers may be made of recycled plastic.

MATERIALS

METALS

Post(s): 6061-T6 aluminum alloy tube measuring 3-1/2" (89mm) in outer diameter, with 0.148" wall thickness.
Hardware: Made of stainless steel, Anti-vandal type.
Metal frame(s): Tubes and flat structures used for several components of this product are made of Canadian compliant CAN G40.21 steel.(lv)

PLASTIC MATERIALS

Panels: High density polyethylene (HDPE), colored in the mass. (sv)
Slide(s): Rotomolded UV stabilized high density polyethylene (HDPE), colored in the mass.

MIXED MATERIALS

Deck(s): 12-Gauge steel sheets, perforated and coated with polyvinyl chloride (PVC). (lv)

COATINGS

Paint: Z-Series polyester powder, with ultraviolet (UV) rays and weather extreme resistance. (sv)
Galvanization: Some attachments are hot dipped galvanized.

OTHER MATERIALS AND COMPONENTS

Climbing grip(s): Polyester resin made of 10% recycled materials, with a non-slip finish.
