

Recreational SPACES

BASIC FEATURES

AGE GROUP: 18 months to 12 years old

CHILD CAPACITY: 5 children

DESCRIPTION

An assembly of play panels that offer a variety of stimulating activities.

ANCHORING

ON STRINGERS

This product is anchored by a system of frames covered with a protective coating buried in the ground. Some parts of the frames can be made from recycled plastic.

MATERIALS

METALS

Post(s): 6061-T6 aluminum alloy tube measuring 3-1/2" (89mm) in outer diameter, with 0.148" wall thickness.

Hardware: Made of stainless steel, Anti-vandal type.

Stainless Steel: No. 8 stainless steel. Used as durable reflective surface or mirror.

PLASTIC MATERIALS

Panels: High density polyethylene (HDPE), colored in the mass. (sv)

Transparent Material: 1/2" colored translucent resin panel

COATINGS

Paint: Z-Series polyester powder, with ultraviolet (UV) rays and weather extreme resistance. Our paint also has antibacterial and antiviral properties. (sv)

Galvanization: Some attachments are hot dipped galvanized.

FLEXIBLE MATERIALS

Rubber: 1/4" thick rubber strap made of three rubber layers laminated with two polyester linings. The top and the underside are smooth.

Vinyl cover: Vinyl IP 1850 FR mildew and cold resistant (-40 degrees Celsius, FR CAN/ULC-S109)
